Hello, Honorable Judge Edward Korman. I hope you are well, yourself and your family. It is a pleasure for me to be able to explain to you by means of this a short narrative of about the life of my brother. Since he was very little, he was a hard working person. He always behaved well here in the town, because he was watching over my mother who is ill now. Since he was little, he worked in the fields so he could contribute some money so we could eat, so we would all study, because my mother could not make money stretch enough. As time passed, my brother was forced to leave his studies because his father abandoned them. My mother was pregnant, and he never took any responsibility for my siblings, and this is why my brother had to start working from a very young age to support my siblings. They were all studying and the expenses weighed heavily on her. Odilon did not want to leave school, but he had to accept it because of the same reason: money was not enough. After dropping out of Benito Juarez Primary School, he started working at a textile factory where he stayed for a while: approximately 4 or 5 years. After that, he was a ticket collector on Route 9, which line runs from Constanica to Seguro de San Jose. Later, he became a driver on that same Route. He was always looking for a way he could contribute some amount of money to the home so he could get them out of the hole. He was really very good to my mom, who is now feeble lacking strength. He always kept a nice friendship going with the neighbors, and he has always loved his family deeply – his children, his siblings, and my mother.

I, Luisa Anahuac Rojas ask you from the bottom of my heart, Honorable Judge, to give my brother a chance. Please, I beg of you, give him a chance. Please, I beg you wholeheartedly for my brother, because my mother really needs him and she is very ill. I know his wrongdoing was very serious, but maybe he was not thinking it through, and I am sure he is remorseful now. I ask you with all my heart to give him another chance. We all err, because no one is perfect in this world. This is why repentance exists. My brother was always very hard-working and humble. I say to you beforehand: thank you for allowing me to express my thanks, and may God bless you and your whole family.

So long, Judge Edward Korman.
